

# COVID-19: When You've Been Fully Vaccinated\*

## Fully vaccinated people can:

Visit with other fully vaccinated people indoors without wearing masks or physical distancing

Visit with unvaccinated people from a single household who are at low risk for severe COVID-19 disease indoors without wearing masks or physical distancing

Refrain from quarantine and testing following a known exposure if symptom-free

## For now, fully vaccinated people should continue to:

**Wear a mask in public**

**Maintain physical distance**

**Avoid crowds**

**Wash hands often**

Monmouth County Regional Health Commission No.1  
P: 732-493-9520

\*People are considered fully vaccinated 2 weeks after getting the second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or 2 weeks after getting a single-dose vaccine (Johnson & Johnson/Janssen). These recommendations apply to non-healthcare settings. Wear masks, maintain physical distance, and practice other prevention measures when visiting with unvaccinated people from multiple households and/or unvaccinated people who are at increased risk for severe COVID-19.
